

WINTER 2008

WHAT THESE NEW LAWS DO

SB 777 prohibits all public school instruction and every school activity from "promoting a discriminatory bias" against (thus requiring positive depictions of) transsexuality, bisexuality, and homosexuality to school-children as young as five years old. SB 777 means children will be taught their "gender" is a matter of choice. *There is no "opt out" for parents.*

AB 394 mandates that K-12 public schools distribute to students material that promotes transsexuality, bisexuality, and homosexuality under the guise of "anti-harassment" education. Subjective and overly broad, this new law means moral values expressed by teachers and students could be "harassment."

Both laws went into effect in January 2008. SB 777 will affect classroom instruction, instructional materials, textbooks, guest speakers, handouts, videos, sex education, drama, music, school assemblies, sports teams, homecoming games, school proms, school clubs, and much more.

PARENT ALERT
**SEXUAL INDOCTRINATION
LAWS IN CALIFORNIA
PUBLIC SCHOOLS**

Effective January 2008, new California laws functionally require public schools to sexually indoctrinate children as young as five years old.

PROTECT YOUR CHILD NOW

With every public school now legally required to indoctrinate children to see all kinds of sexual lifestyles as "normal," the only way to protect your kids is to remove them from public schools.

Fortunately, you can take advantage of excellent education alternatives that will protect your child's innocence. These include church schools, home schools, University Model Schools, and church-based One Room Schoolhouses.

Most of these alternatives are relatively inexpensive. Many fathers and mothers are being creative and making financial adjustments to rescue their children from the incoming sexual indoctrination.

While removing your children from government schools may sound intimidating or too difficult, it's not. User-friendly curriculum and Internet courses have made it easier than ever to receive an excellent education at home or church.

Being in charge of your child's education gets comfortable over time and the rewards are great. **Together, parents and churches can rescue our sons and daughters from sexual indoctrination.**
